About Me

A highly motivated and result-oriented student with a Web development background, who is always willing to learn new skills.

Projects

Issue tracker system *[11/2022- 12/2022]*

- Technology using **PHP Language, SQLite Database,HTML,CSS,Javascript,jQuery,Ajax,Boostrap**.
- This Mini-Project has 2 types of users which are the admin and employees. The admin is in charge of managing or populating the list of the company's departments and employees. He/She also can overwrite the action made by the employees. The employee user can create or post an issue for a specific department and he/she and the staff in the selected department can communicate with each other by leaving some comments about the posted issue. The project is very simple yet might be useful especially for those who are new to PHP Language. It has a simple user interface using bootstrap and user-friendly functionalities.

Portfolio Webpage *[08/2022- 09/2022]*

- Technologies used- **HTML, CSS andJavascript.**

- All the information like About, Seen video resume, View CV, Project, Contact, Education and Certificates
